Since 1995, CIESSETTRADE has helped Czech and Slovak manufacturers achieve higher productivity and better quality through premium Italian precision engineering solutions.

- Our Italian partners deliver results:
  - Rosa & Favretto surface grinders with micrometric precision.
  - Duplomatic tool turrets for complex CNC operations.
  - Balance Systems for optimal spindle control.
  - Peron Speed electrospindles for high-performance machining.
- Complete local support:
  - Technical consultation and solution design.
  - Professional installation and training.
  - Comprehensive warranty and service support.

**KEY STRENGTHS**

- 30 years of exclusive representation of prestigious Italian brands
- Complete service ecosystem with local support for tool turrets
- Specialization in high-precision CNC technologies

**NOTABLE PROJECTS / EXPERIENCE**

- Digital transformation processes and modern marketing approach
- Combination of technical expertise and understanding of user needs
- Cross-cultural business development of Italian manufacturers
